VOLUME CVI.--NO 195.

ALEXANDRIA, VA., FRIDAY EVENING, AUGUST 18, 1905.

PRICE 2 CENTS.

A rich man died the other day. He died in the very midst of life, and he left his family \$1,000,000. The doctor's certificate showed that death resulted from typhoid fever. The doctor himself said to a friend: "That man was a suicide. He had a splendid constitution. I could have pulled him through if his stomach had been sound. But he ruined his stomach by hasty meals, snatched in between the symptoms of business and by neglect of symptoms which have been warning him a year past, that his stomach was failing in its duties."

The symptoms of a disordered stomach are, among others, variable appetite, sour risings, heartburn, undue fullness after eating, dull headache, dizziness, discolored eye, fluctuations in physical strength, nervousness, sleeplessness, depression. No person will have all these symptoms at once.

The restoration of the stomach to sound health, begins with the first dose of Dr. Pierce's Golden Medical Discovery. The cure progresses until the functions of the stomach are in healthy operation. Then the nerves are quiet and strong, the appetite healthful, the sleep restful, the eye bright, the complexion clear.

Please accept my thanks for the benefit which my wife received from your medicine, writes Mrs. W. A. Moran, of Silica, Mo. "She had been troubled for nearly a year with liver complaint, indigestion and constipation. I gave her your Golden Medical Discovery and after eight months, and several visits of the Pellets, she seems to be perfectly well now."

These ORIGINAL Little Liver Pills, first put up by Dr. J. C. Milburn, K. V. Pierce over 40 years ago, have been much imitated but never equaled. They are made of purely vegetable, concentrated and refined medicinal principles, extracted from native American roots and plants. They speedily relieve and cure foul, torpid and distended stomachs, Livers and Bowels and their attendant distressful ailments. One or two a laxative, three or four a cathartic.

NATURE SPARES  
The Stricken Rose From Grief.  
What a fortunate provision of nature it is, that deprives the rose of its perfume for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always suffers; she is a veritable house of mourning. For those who seek her aid, in the years of suffering, she has a veritable house of mourning. For those who seek her aid, in the years of suffering, she has a veritable house of mourning.

WEAK HEART'S

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol  
Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.

MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

### QUESTION OF INDEMNITY.

Mr. de Martens, one of the Russian delegates and recognized as one of the great authorities on international law, not only in Russia, but throughout the world, in speaking in Portsmouth, N. H., yesterday about the principle of the war indemnity, said that there was no precedent in history where a country whose territory was not occupied in whole or in part by the enemy had paid war tribute upon the conclusion of peace. Russia, Mr. de Martens said, was not crushed. She was not on her knees begging for peace. She wanted peace, but she could go on fighting for years. Japan had not even approached the true Russian frontier.

"Should Russia consent to pay tribute to Japan in any form," continued the eminent jurist, "it would be her political death. The powers would understand that she accepted the proposition of President Roosevelt, not because she was desirous of an honorable peace, but because her power had been annihilated and she recognized that it was impossible for her to continue the war. It would mean a public confession that Russia is at Portsmouth helplessly kneeling before Japan, imploring peace, and ready to accept any terms imposed. No one will seriously contend that the Muscovite empire is in any such position."

With many interesting historical examples M. de Martens proceeded to elaborate his thesis that no country had ever paid indemnity except when powerless to confront the enemy on the field of battle, and with a large portion of her territory in the enemy's possession as a hostage.

In 1807, he pointed out, when Napoleon imposed the peace of Tilsit, French troops occupied practically all of Prussia, and the Prussian royal family had fled to Russian soil. France could dictate terms. She exacted a war indemnity of \$2,000,000, and garisoned several Prussian towns with French troops at the expense of Prussia as a guarantee of payment. She required that the Prussian army should be reduced to 40,000 men.

In 1815, when Napoleon was annihilated at Waterloo, after the famous "100 days," and the second treaty of Paris was concluded, the allied powers occupying Paris, as the Prussians did later, in 1870, imposed, in addition to other conditions, a war indemnity of \$500,000,000, to be paid in five years, during which time the allied troops were to hold a portion of French territory. That sum, however, was considerably reduced by Wellington at Aix-la-Chapelle, and France completed the payment of the indemnity in three years. The largest war indemnity ever exacted was imposed by Prince Bismarck, upon France, in 1870. It amounted to \$1,000,000,000. But Napoleon III had fallen. Gambetta was powerful. Prussia was at Paris. The third republic succeeded in liquidating the indemnity in two years, while, according to the treaty, she had five years' time in which to pay.

In other cases, even where a portion of the territory of the fated country was occupied, no indemnity was exacted or even asked; for instance, Russia in 1856, although the Crimean peninsula was occupied by the Franco-Piedmontese troops, was not asked to pay tribute. Neither did Austria in 1859, after having been defeated by the Franco-Piedmontese and having lost Lombardy, or in 1866, after having been beaten by Prussia, pay an indemnity. Denmark in 1864 lost Schleswig-Holstein to Prussia, but paid nothing.

"A new precedent was made by America," added M. de Martens, "in her war with Spain. Although victorious and in a position to claim indemnity, she ended the war on principle and actually paid \$20,000,000 to the Madrid government for the Philippine Islands.

"But that," he remarked, "was, as the French say, to 'dorer la pilule.' " Independence of all these considerations, M. de Martens said, Russia's objection to the payment of an indemnity, under no matter what form, comes from the fact that in all her history she never paid a cent of tribute to a foreign power, not even during the time of her worst defeats under Peter the Great, when a large portion of the country was in the hands of the invaders. In conclusion he called attention to the fact that to pay an indemnity to Japan would be for Russia to create a precedent new in the world's history.

### A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in the case of cholera infantum. For sale by Gibson & Timberman, and W. F. Creighton & Co.

### Spiral vs. Ring Theory.

La Place's "ring" theory of the nebular hypothesis for the creation of the universe, which has stood service for more than a century in the scientific world, has been torn to pieces by Prof. F. R. Moulton, of the University of Chicago, who believes that he has made the real solution of the evolution of our solar system. Assisted by Prof. Thomas C. Chamberlain, head of the geology department, Professor Moulton has been working for more than four years to disprove the "ring" theory and to set up what he terms the "spiral" theory. The results of their researches have been made known in a lecture on "The Evolution of the Solar System" delivered by Professor Moulton. "The 'ring' theory was brought out by La Place in 1796, and has been accepted almost universally up to the present time," said Professor Moulton. "The theory which Professor Chamberlain and myself hold is the spiral theory. We believe a second sun—a disturbing sun—moved down near our sun and caused on our sun enormous tides, thousands of miles high. The tides were similar to the tides of the sea. One tide was at the point nearest the disturbing sun and the other tide was on the opposite side. The matter shot towards the disturbing sun. Ordinarily it would have been straight up, but the disturbing sun moved around in an elliptical sort of orbit. Consequently, all the masses thrown off were in a spiral direction one after another, which accounts for the orbits of the planets. The swollen masses were attracted to the large nuclei, which made them into planets."

### Policeman Assaulted by Negroes.

Assaulted by a gang of negroes in an alley near Second and Canal streets, southwest Washington, yesterday afternoon about 5:30 o'clock, Policeman H. K. Wilson was rendered unconscious by a blow from a heavy iron bar; he was kicked, beaten, and struck on the head with a brick, narrowly escaped being shot, and was robbed of his revolver. Two boys gave the alarm and the officers of the Fourth precinct were called out. Policeman Wilson had arrested a negro who entered into an argument with the officer and John Carroll, a colored man living in the alley, over a dog tax. Before the prisoner could be taken to the patrol box half a dozen negroes appeared and attacked the policeman. The prisoner was freed. The policeman's club and revolver were taken from him, and while struggling to retain the latter the trigger was pulled by one of his assailants and the weapon discharged a shot which grazed the ear of the officer. During the fight Wilson was struck a heavy blow on the back of the head with a brick, and on the shoulder with an iron bar, and knocked to the ground unconscious and bleeding. The negroes escaped, taking the policeman's assistance, but boys called another policeman, who telephoned for help and began search for the negroes. The negro Carroll was arrested and held on suspicion pending a further investigation.

## Thousands of Women

ARE MADE WELL AND STRONG

Success of Lydia E. Pinkham's Vegetable Compound Rests Upon the Fact that It Really Does Make Sick Women Well

Thousands upon thousands of American women have been restored to health by Lydia E. Pinkham's Vegetable Compound. Their letters are on file in Mrs. Pinkham's office, and prove this statement to be a fact and not a mere boast.

Overshadowing indeed is the success of this great medicine, and compared with it all other medicines and treatments for women are experiments.

Why has Lydia E. Pinkham's Vegetable Compound accomplished its widespread results for good?

Why has it lived and thrived and done its glorious work for a quarter of a century?

Simply and surely because of its sterling worth. The reason no other medicine has even approached its success is so plainly and positively because there is no other medicine in the world so good for women's ills.

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womanhood is not because it is a stimulant—not because it is a palliative, but simply because it is the most wonderful tonic and reconstructive ever discovered to act directly upon the uterine system, positively curing disease and displacements and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures, and physicians who have recognized the virtue in Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due. If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience that it will effect a cure.

Women who are troubled with painful or irregular menstruation, backache, bloating, flatulence, leucorrhoea, "bearing down" feeling, dizziness, faintness, indigestion, nervous prostration, or the blues, should take immediate action to ward off the serious consequences and be restored to health and strength by taking Lydia E. Pinkham's Vegetable Compound. Anyway, write to Mrs. Pinkham, Lynn, Mass., for advice. It's free and always helpful.
